

**For International Applicants**  
**Yabancı Uyruklu Adaylar için****Application and Registration Dates / Başvuru ve Kayıt Tarihleri**

SEMESTER	2022-2023 Autumn Semester
Application Dates	August 08-25 , 2022
Announcement of Results of Applications for MSc and PhD Programs	September 02, 2022 (Your application results can be displayed in the UBS system)
Registration Dates for MSc and PhD Programs	September 05-06, 2022
Announcement of Results of Applications for non-thesis MSc Programs	August 26, 2022
Registration Dates for non-thesis MSc Programs	August 26 – September 01 , 2022

**Application Conditions and Who Can Apply? / Başvuru Koşulları ve Kimler Başvurabilir?**

Department Enstitü Anabilim Dalı	Master's Degree Yüksek Lisans	Non-thesis Master's Degree Tezsiz Yüksek Lisans	PhD Doktora	Integrated PhD Bütünleşik Doktora
	<b>MASTER OF SCIENCE</b>		<b>PHD</b>	<b>INTEGRATED PHD</b>
	<b>Turkish medium of instruction program</b> GPA $\geq 2,20$		<b>Turkish medium of instruction program</b> GPA $\geq 2,20$ MGPA $\geq 3,00$	<b>Turkish medium of instruction program</b> GPA $\geq 3,50$
1 Biyokompozit Mühendisliği	Graduates of Engineering and Science departments, Forest Faculties, Technical Education Faculties, Technology Faculties may apply	–	Those having any MSc degree may apply	Graduates of Engineering and Science departments, Forest Faculties, Technical Education Faculties, Technology Faculties may apply
	Intl Student Quota for MSc Program (in Turkish): 2		Intl Student Quota for PhD Program (in Turkish): 1	Intl Student Quota for Integrated PhD Program: 0

		PHD		INTEGRATED PHD
		English medium of instruction program		English medium of instruction program
		GPA ≥ 2,20 MGPA ≥ 3,00		GPA ≥ 3,50
2	<b>Biomedical Technologies (ID)</b>  Biyomedikal Teknolojiler	–	Graduates of Biomedical, Bioengineering, Mechatronics, Electrical-Electronics, Electronics, Communication, Electronic-Communication and Computer Engineering departments; Graduates of Medicine, Dentistry, Pharmacy, Nursing, Physiotherapy and Veterinary Faculties or departments HAVING a MSc degree in these fields or in Biomedical Technologies may apply  Intl Student Quota for PhD Program (in English): 2	Graduates of Biomedical, Bioengineering, Mechatronics, Electrical-Electronics, Electronics, Communication, Electronic-Communication and Computer Engineering departments; Graduates of Medicine, Dentistry, Pharmacy, Nursing, Physiotherapy and Veterinary Faculties or departments may apply  Intl Student Quota for Integrated PhD Program: 0

**IMPORTANT NOTES  
FOR ALL APPLICANTS****For Turkish medium of instruction programs:**

C1 level Turkish language proficiency is a prerequisite in terms of admission to Turkish medium of instruction programs. This document must be taken from Turkish Education Centers of the state universities (TÖMER) or from the Yunus Emre Institute. If you don't have Turkish language proficiency, you can also be admitted to the programs. After admission, international students are given the opportunity to attend Turkish preparatory courses for one year.

**For English medium of instruction programs:**

It is essential that you demonstrate competence in English for admission to English medium of instruction programs. Therefore, applicants must submit a valid English Proficiency Exam Result (minimum acceptable scores: 65 on Yabancı Dil Sınavı YDS, e-YDS or YÖKDİL; 78 on TOEFL-iBT; 67 on PTE Academic). If the applicant is a citizen of a country where the official language is English, or has an undergraduate or graduate diploma of these countries' higher educational institutions that instruct in English, or they come from non-Turkish educational institutions whose language of education is fully English at the undergraduate level, English score is not required. Applicants not satisfying one of these criteria must fulfill the foreign language requirements for Turkish citizens.

Equivalency of IELTS, TOEFL-PBT and TOEFL-CBT exams is not accepted by YOK (Turkish Higher Education Council) and these exams will not be valid for Graduate Program registrations.

We require YDS/e-YDS/YÖKDİL or TOEFL IBT score from all non-native English speakers.

- Applications of foreign applicants to graduate programs are evaluated by the relevant program exam jury on the documents declared.
- There is no requirement for a written scientific evaluation exam. If an interview is required as an application requirement, the interview can be conducted with the candidate as an electronic interview.
- Applicants can apply to a maximum of two programs.
- All the submitted documents must be in the original language and accompanied by a certified Turkish or English translation.
- The applicant is responsible for the mistakes made during the application. All transactions made as a result of incorrect application made for any reason (due to the error of the candidate, lack of information, wrong / incorrect information entered into the online system, etc.) are canceled. For this reason, the application conditions and requested information / documents should be carefully examined before applying, and information entries should be made carefully during online application.
- Those who intentionally or unintentionally misrepresent the required documents and those who fake the documents, even if they are accepted, are not registered. Registration of students made according to fake information and documents are deleted.
- Please read the entire document carefully. The answers to your questions about the application requirements for the program, application and registration dates, program fee, application, registration and admission documents, etc. are in this document. If you have further questions, you may contact us by: [fenbilimleri@ikcu.edu.tr](mailto:fenbilimleri@ikcu.edu.tr)

- Please note that “out of field” students may have to take remedial courses at the undergraduate level.

**REQUIRED APPLICATION DOCUMENTS**

<b>MASTER OF SCIENCE</b>  The first application will be made online through the UBS system.  The documents may be sent by hand delivery, mail or courier.	1- Application Form stating the program or programs you wish to apply (The printout of the application made via UBS system) 2- Resume (CV) 3- Certified copy of your undergraduate (university) diploma 4- Certified copy of your undergraduate (university) transcript 5- Language proficiency test result. For Turkish programs: Turkish Proficiency Certificate at C1 level; For English programs 65 on YDS/e-YDS/YÖKDİL or equivalent. 6- Copy of your valid passport 7- Two reference letters 8- Bank receipt of tuition fee payment. There is no application fee; however, the tuition fee must be paid after acceptance in order to enroll you.
<b>NON-THESIS MASTER OF SCIENCE</b>  The first application will be made online through the UBS system.  The documents may be sent by hand delivery, mail or courier.	1- Application Form stating the program or programs you wish to apply (The printout of the application made via UBS system) 2- Resume (CV) 3- Certified copy of your undergraduate (university) diploma 4- Certified copy of your undergraduate (university) transcript 5- Copy of your valid passport 6- Bank receipt of tuition fee payment. There is no application fee; however, the tuition fee must be paid after acceptance in order to enroll you.
<b>PHD</b>  The first application will be made online through the UBS system.	1- Application Form stating the program or programs you wish to apply (The printout of the application made via UBS system) 2- Resume (CV) 3- Certified copy of your undergraduate (university) and master’s diploma 4- Certified copy of your undergraduate (university) and master’s transcript 5- Language proficiency test result. For Turkish programs: Turkish Proficiency Certificate at C1 level AND 55 on YDS/e-YDS/YÖKDİL or equivalent; For English programs 65 on YDS/e-YDS/YÖKDİL or equivalent. 6- Copy of your valid passport

**The documents may be sent by hand delivery, mail or courier.**

7- Two reference letters

8- Bank receipt of tuition fee payment. There is no application fee; however, the tuition fee must be paid after acceptance in order to enroll you.
